

# IQAX Big Schedules Basic Plan

More than 5 million sailing schedule changes occur each month due to service changes and disruptions. Shippers and logistics service providers need access to the latest schedules to optimize supply chain planning.

IQAX Big Schedules provides up-to-date sailing schedules for 27 major ocean carriers, over 1.6 million port pairs, and nearly 7,800 vessel services. Leveraging big data sources, IQAX monitors and analyzes live vessel, weather, and news data covering 90% of the world's container capacity to optimize your sailing schedule and vessel tracking search results.
